

**Town of Kipling
Policy Manual**

POLICY DESCRIPTION:

Sewer Line Replacement

POLICY NUMBER:

UT0001

DATE APPROVED: April 15, 2008

REVISED: February 14, 2010

REVISED: November 8, 2021

RESOLUTION: #85/08

RESOLUTION: #31/11

RESOLUTION: #230/21

The Town of Kipling may assist homeowners whose residences who have a plugged sewer line, in the following manner:

- Regardless of where a blockage occurs (resident's property or Town property), the Town of Kipling will:
 - a) Pay a maximum of \$100 once each calendar year (Jan-Dec) to have the sewer line unplugged.
 - b) Any further cleanouts within the twelve-month period are at the owner's cost.

If a sewer camera shows there to be problems with the line; the resident may opt to have the line dug and replaced, splitting the costs 50-50 (regardless of whose side town or property owner the problem is on) with the Town.

Process:

- All requests for line replacement must be approved by Council prior to any work being undertaken.
- To be eligible for matching funding, the homeowner who intends to replace the sewer line must sign and complete the sewer line agreement and return to the office.
- The Town will arrange with a local contractor to schedule the work.
- The Town must inspect the line before it is filled.
- The Town will provide one top up of dirt only, if needed.
